Remove a customer	DELETE	/api/customers/id

QUESTIONYou are developing an ASP.NET MVC application. Applications can be deployed to remote servers only by administrators who have elevated privileges. The administrators do not have access to Visual Studio 2012. You need to select a deployment tool to deploy the application to remote servers for testing. Which tool should you use? A.　Copy Web Site ToolB. One-Click PublishC.　Publish Web Site ToolD.　Web Deployment Package Answer: D QUESTIONYou are developing an ASP.NET MVC web application that contains the following HTML.<table id= "customer" ></table>You also have an ASP.NET Web API application that contains a call for retrieving customers. You must send and retrieve the data in the most compact format possible. You need to update the HTML for the customers table to contain data from the Web API application. Which script segment should you use?

```
C A.  <script>
        $(function () {
          var $customers = $("#customers");
          $.ajax({
            url: "api/customers",
            dataType: "json",
            success: function (data) {
              ...
            }
          });
        });
      </script>

C B.  <script>
        $(function () {
          var $customers = $("#customers");
          $.xml({
            url: "api/customers",
            dataType: "ajax",
            success: function (data) {
              ...
            }
          });
        });
      </script>

C C.  <script>
        $(function () {
          var $customers = $("#customers");
          $.json({
            url: "api/customers",
            dataType: "ajax",
            success: function (data) {
              ...
            }
          });
        });
      </script>

C D.  <script>
        $(function () {
          var $customers = $("#customers");
          $.ajax({
            url: "api/customers",
            dataType: "xml",
            success: function (data) {
              ...
            }
          });
        });
      </script>
```
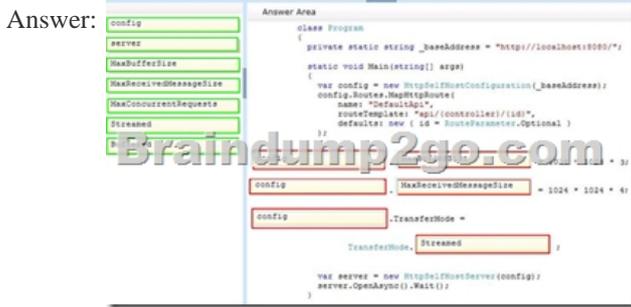

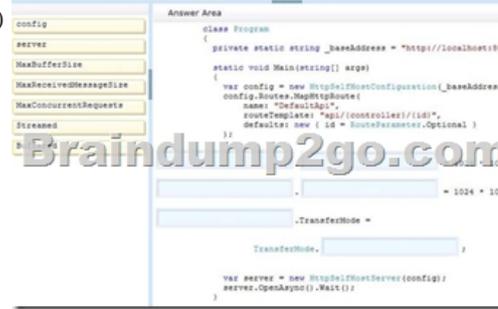

A.   Option AB.   Option BC.   Option CD.   Option D Answer: A QUESTIONDrag and Drop QuestionYou are developing an ASP.NET MVC Web API image management application.
